\*\*Device must not be co-located or operation of the computer user guides included with the control of the processibilists of process

CAUTION: When using IEEE 802.11a wireless LAN, this product is restricted to indoor use, due to its operation in the 5.15- to 5.25-GHz frequency range. FCC/Industry Canada requires this product to be used indoors for the frequency range of 5.15 GHz to 5.25 GHz to reduce the potential for harmful interference to co-channel mobile satellite systems. High-power radar is allocated as the primary user of the 5.25- to 5.35-GHz and 5.65-in is 5.85-GHz and 5.65-in. Risper adds rations can cause interference with and/or damage to this device.

The antennas for this device are not replaceable. Any attempt at user access will damage your computer.

### **Brazil** notice

ra em caráter secundário, isto é, não tem direito a proteção contra interferência prejudicial, mesmo de estações do mesmo tipo, e não pode causar interferência em sistemas e equipamento opera em caráter secundário, isto e, não tem urieto a protego como em caracter primário.
erando em caráter primário.
te equipamento atende aos limites da Taxa de Absorção Específica referente à esposição a campos elétricos, magnéticos e eletromagnéticos de frequência adotados pela ANATEL.

### Canada notices

This Cases Bid glidal apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations CAN ICES-3(B)/NMB-3(B). If this device has WLAN or Bluetooth capability, the device complies with industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, ending interference that may cause underined operation of the device.

AVIS\_LANGUER (Céapositif numérique de Classe B répond aux exigences de la réglementation du Canada relative aux équipements causant des interférences CAN (ES-3(B)/NMB-3(B), Cé despositif numérique de Classe B répond aux exigences de la réglementation du Canada relative aux équipements causant des interférences CAN (ES-3(B)/NMB-3(B), Si ce dispositif et dit de classe B individual de l'active aux des l'active de l'active de

Teduction can be activered in the production and reductions:
Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.
Le produit est siz pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi on unus le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
